Safety Policy and Slab Warehouse

While visiting Mont, your safety is of utmost importance to us. We thank you in advance for your understanding of our policy as we want to ensure the safety of all of our visitors.

- Children 12 and under are not permitted in our working warehouse at any time and should not be left unattended in the Design Center.
- Mont warehouses are set up to ensure that slabs are securely displayed. Only trained personnel are permitted to move the slabs. Please do not attempt to move any slabs.
- We do not move slabs for viewing that are "on hold" for another customer.
- There are limitations to the number of selections that can be moved. Please see your sales associate.
- We do not call the homeowner before "on hold" slabs are released. It is up to your industry professional to coordinate the delivery date and to send a purchase order to Mont before your 14 day hold period has expired.
- If the 14-day time period is close to expiration, your trade professional will be contacted prior to the slabs being removed from hold and returned to our inventory for sale to other visitors.
- When you have confirmed your material selection, we highly recommend you follow up with your industry professional to order and take delivery of the selected materials before the 14 day time period elapses. This ensures that you will receive the slabs you have hand selected.
